

Fact Sheet

safer, healthier relationships
for children and families

Our Organization

VISION

FamilyForward leads the community in providing innovative solutions for advancing safer, healthier relationships for children and families.

MISSION

FamilyForward moves vulnerable children in the direction of hope by delivering comprehensive therapeutic and educational services to support biological, foster, and adoptive families.

FOUNDED

FamilyForward is the result of a 2017 merger between two of St. Louis' most accomplished and leading-edge non-profit organizations, Children's Home Society of Missouri and Family Resource Center. With long and proud histories of helping children and families, the agencies united from positions of strength to better serve the community. FamilyForward is transforming the way we understand the effects of childhood trauma.

How We Help

DEFINING THE NEED

During fiscal year 2022, 18,225 children in the St. Louis area were reported to the Missouri Child Abuse and Neglect Hotline.

MAKING AN IMPACT

4,395 children, their families, and community members were served by FamilyForward in 2022.

METHODS

The agency's overarching philosophy is based in the Neurosequential Model of Therapeutics™ (NMT), developed by Dr. Bruce Perry. NMT is a trauma-informed, developmentally sensitive approach to understanding the impact of a child's history on current functioning. Guided by NMT, FamilyForward's comprehensive services support the child, family, and broader community.
